

Welcome Back Year 2

Mr Firkins and all the teachers and TAs are looking forward to seeing you.

When you get to school you will line up outside with your grown up and will need to say goodbye to your grown up outside the main entrance.

Your usual teacher, Mrs Molloy or Mrs Baker and Mr Smith, will be there to help you.

When you get into your usual class there will be an adult to welcome you and help you come into school and wash your hands.

You might notice cupboards have been turned around and curtains have been taken out of your classroom. You might think your classroom looks a little different.

You will have your own desk to sit at.

You will have your own special tray with the things you will need inside it.

There will be markings on the floor to show you which way to walk and which side of the corridor to walk along.

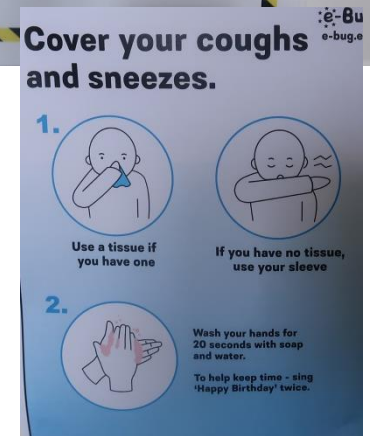

You will see posters to remind you to leave a gap between you and your friends and teachers.

Your class will have an outdoor area to use that will be just for your 'bubble' (group).

Some adults might be wearing special masks and aprons.

Adults will help you understand and remember the new things about school.

See you soon!

Your class teacher and class TA can't wait to see you.
There might be some extra grownups in your class to help you too.
