

## The Story of Vallis School Library March 2020 - March 2021

We have finally completed the project to update the library and make it a more inviting space for the children to learn in. It has taken longer than anticipated due to COVID but we've made it. I would like to take this opportunity to say a huge thank you to a few people who have made this project happen – without their time, patience, amazing skills and enthusiasm we just simply would not have been able to complete it.

**Will Gibson** has done an incredible job in creating the rocket and the raised area; it looks amazing.

**Paul Boswell and Rachael Macleay's** creative and artistic skills have helped to transform the walls into a starlit woodland.

**Sasha Roberts** has helped us to reuse some furniture by re-upholstering some chairs with new stary material.

**James Derrick** helped in spraying the shelving which we were also able to reuse but now look much brighter.

**John and Sandra Blagdon** who replastered part of the walls and helped transform what was an unused cupboard.

**Louise Bastable and Andrew Bell** who drew up the initial plans and allowed us to see how some ideas might look in reality.

I am truly grateful for all your hardwork and I know the children will be saying a thank you too in a couple of weeks.

Below are some pictures I took as the project progressed and hopefully it will give you an idea of what has been achieved.

Nick Firkins  
Headteacher

*The more that you read, the more things you will know.  
The more that you learn, the more places you'll go.*

**Dr Seuss**
