Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Vallis First School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Vallis First School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy originates from the model template from South West Grid for Learning (SWGfL).

The requirement that learners can use digital technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. Schools must, through their Online Safety Policy, meet their statutory obligations to ensure that learners are safe and are protected from potential harm, both on and off-site.

This Online Safety Policy has been developed by the *Online Safety Group at Vallis which has been made up of: headteacher/deputy headteacher; senior leaders; Designated safeguarding lead (DSL); Online Safety lead (OSL); staff – including teachers/support staff/technical staff; governors*

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Approved: January 2025
Holly Lawton
Chair of Governors

Schedule for development, monitoring and review

This Online Safety Policy was approved by the <i>school governing body</i> on:	<i>Insert date</i>
The implementation of this Online Safety Policy will be monitored by:	<i>Online Safety Committee: designated safeguarding lead and online safety lead (Tracey Messenger), senior leadership team (Georgina Muxworthy, Io Fox, Jo Higgins), and Online safety Governor (Katie Twitchen).</i>
Monitoring will take place at regular intervals:	<i>Annually</i>
The <i>governing body</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	<i>Annually</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	<i>Annually unless amendments to the model policy occur</i>
Should serious online safety incidents take place, the following external persons/agencies should be informed:	<i>LADO & Avon and Somerset police</i>

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *Filtering and monitoring logs – reported from Soft Egg*
- *surveys/questionnaires of: learners; parents and carers; staff.*
- *Other documents and resources: pupil voice / floorbooks*
- *Future developments*

Approved: January 2025
Holly Lawton
Chair of Governors

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals¹ and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead (Tracey Messenger), as defined in Keeping Children Safe in Education.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff².
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Online Safety Lead.
- The headteacher/senior leaders will work with the responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

Governors

The DfE guidance “Keeping Children Safe in Education” states: “Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare this includes ... online safety”

¹ In a small school some of the roles described may be combined, though it is important to ensure that there is sufficient ‘separation of responsibility’ should this be the case.

² See flow chart on dealing with online safety incidents in ‘Responding to incidents of misuse’ and relevant local authority/MAT/ HR/other relevant body disciplinary procedures.

Approved: January 2025
Holly Lawton
Chair of Governors

“Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place)”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy.

This review will be carried out by the Katie Twitchen (Online Safety Governor) who will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- **Monitor the effectiveness of the Online Safety Policy**
- **Delegate a governor to act as Online Safety link**
- **Online Safety Governor works with the Online Safety Leader to carry out regular monitoring and report to Governors**
- **Verify that the filtering, monitoring and or supervision systems are in place to identify children accessing or trying to access harmful and inappropriate content online**

- **regular meetings with the Designated Safeguarding Lead / Online Safety Lead**
- **regularly receiving (collated and anonymised) reports of online safety incidents**
- **checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)**
- **Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually.** (The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor) - in-line with the [DfE Filtering and Monitoring Standards](#)
- **reporting to relevant *governors group/meeting***
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the [DfE Cyber-Security Standards](#)
- *membership of the school Online Safety Group*

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team

Approved: January 2025
Holly Lawton
Chair of Governors

- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

Online Safety Lead

The Online Safety Lead will:

- lead the Online Safety Group
- receive reports of online safety issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future online safety developments
- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with (school/local authority/MAT/external provider) technical staff, pastoral staff and support staff (as relevant)
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
 - content
 - contact
 - conduct
 - commerce

Curriculum Leads

Computing Lead will work with the DSL/OSL to develop a planned and coordinated online safety education programme following the Project Evolve Programme and Teach Computing.

This will be provided through:

- a discrete programme planned every half term to ensure discrete learning takes place in addition to online safety through out Teach Computing Curriculum.
- PHSE and SRE programme (SCARF)
- assemblies and pastoral programmes (Personal development of the child)
- through relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#).

Teaching and support staff

School staff are responsible for ensuring that:

Approved: January 2025
Holly Lawton
Chair of Governors

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to Tracey Messenger for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers are on a professional level *and only carried out using official school systems*
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use *and that processes are in place for dealing with any unsuitable material that is found in internet searches*
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies (*n.b. the guidance contained in the SWGfL Safe Remote Learning Resource*)
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

IT Provider – Soft Egg

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the [DfE Meeting Digital and Technology Standards in Schools & Colleges](#) and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to ([Tracey Messenger](#)) for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person (*see appendix 'Technical Security Policy template' for good practice*).
- *monitoring systems are implemented and regularly updated as agreed in school policies*

Approved: January 2025
Holly Lawton
Chair of Governors

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy ([this should include personal devices – where allowed](#))
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.
-

Parents and carers

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- *reinforcing the online safety messages provided to learners in school.*
- *the safe and responsible use of their children's personal devices in the school (where this is allowed)*

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group has the following members:

- Designated Safeguarding Lead and Online Safety Lead (Tracey Messenger)
- senior leaders (Georgina Muxworthy, Io Fox, Jo Higgins)
- online safety governor (Katie Twitchen)
- technical staff (Soft Egg - George)
- teacher and support staff members
- learners

Approved: January 2025
Holly Lawton
Chair of Governors

- parents/carers
- community representatives (Parent Governors)

Members of the Online Safety Group will assist the DSL/OSL with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

An Online Safety Group terms of reference template can be found in the appendices.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Online Safety Policy

The DfE guidance “Keeping Children Safe in Education” states:

“Online safety and the school or college’s approach to it should be reflected in the child protection policy”

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms

Approved: January 2025

Holly Lawton

Chair of Governors

- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- *is published on the school website.*

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction and handbook
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support.

Use of school e-mail for personal e-mails	X				X			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. *Personal e-mail addresses, text messaging or social media must not be used for these communications.*
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- *relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.*

Reporting and responding

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm ([see flowchart and user actions chart in the appendix](#)), the incident must be escalated through the agreed school safeguarding procedures, this may include
 - Non-consensual images
 - Self-generated images

Approved: January 2025
Holly Lawton
Chair of Governors

- Terrorism/extremism
- Hate crime/ Abuse
- Fraud and extortion
- Harassment/stalking
- Child Sexual Abuse Material (CSAM)
- Child Sexual Exploitation Grooming
- Extreme Pornography
- Sale of illegal materials/substances
- Cyber or hacking [offences under the Computer Misuse Act](#)
- Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority / MAT
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority / MAT (as relevant)
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police;
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided ([as relevant and anonymously](#)) to:
 - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*
 - *staff, through regular briefings*
 - *learners, through assemblies/lessons*

Approved: January 2025
 Holly Lawton
 Chair of Governors

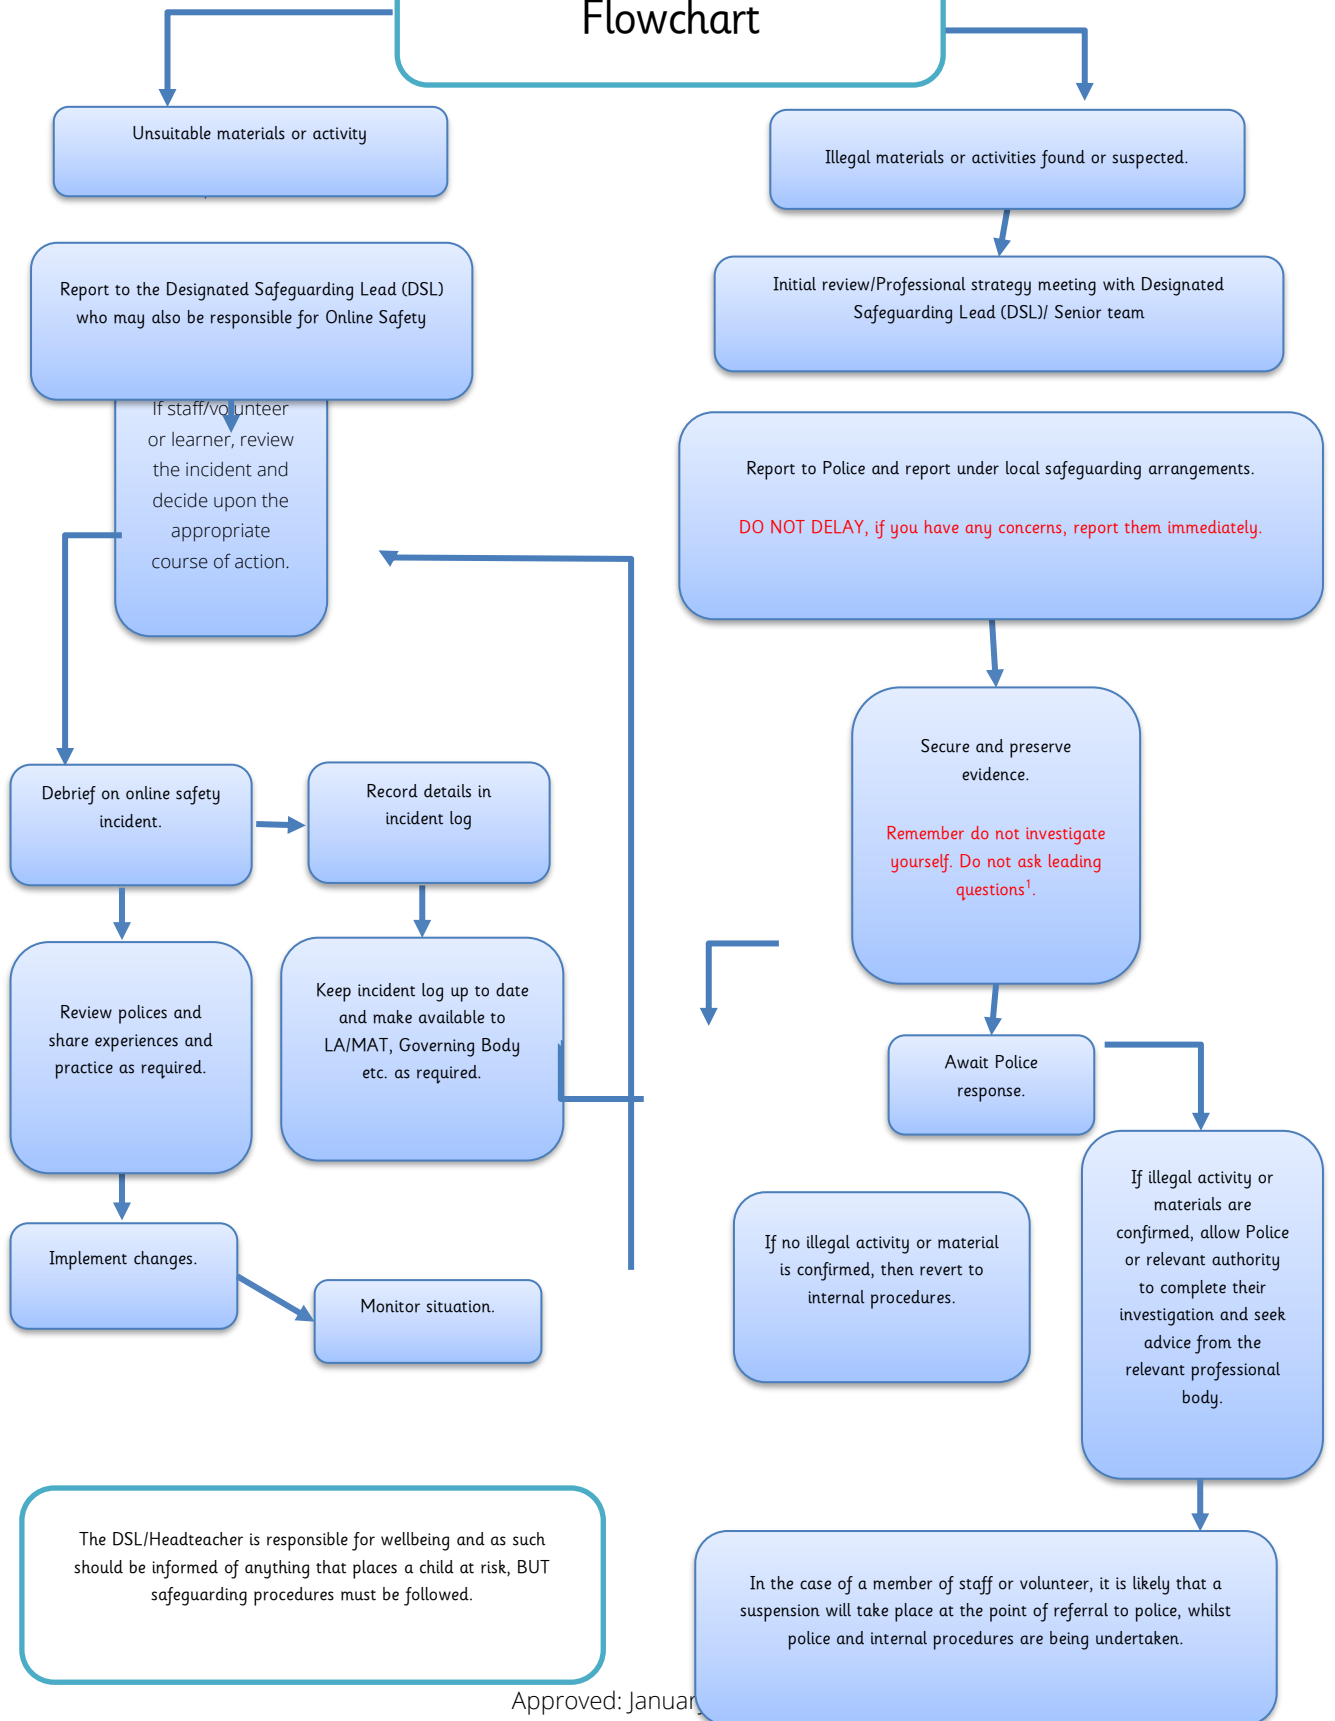

- *parents/carers, through newsletters, school social media, website*
- *governors, through regular safeguarding updates*
- *local authority/external agencies, as relevant*

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

Approved: January 2025
Holly Lawton
Chair of Governors

Online Safety Incident Flowchart

The DSL/Headteacher is responsible for wellbeing and as such should be informed of anything that places a child at risk, BUT safeguarding procedures must be followed.

Approved: January
Holly Lawton
Chair of Governors

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Head of Department / Principal Teacher / Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access rights	Issue a warning	Further sanction, in line with behaviour policy

Continued infringements of the above, following previous warnings or sanctions.		X	X			X	X	X

Online Safety Education Programme

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum for all year groups matched against a nationally agreed framework e.g. Education for a Connected Work Framework by UKCIS/DCMS and the SWGfL Project Evolve and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.

Approved: January 2025
Holly Lawton
Chair of Governors

- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme is relevant and up to date to ensure high quality of learning and outcomes for all children at Vallis.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements / golden rules
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.

Approved: January 2025
Holly Lawton
Chair of Governors

- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Online Safety Lead and Designated Safeguarding Lead will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead/Online Safety Lead will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority/MAT or other relevant organisation (e.g., SWGfL)
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and review.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carers evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carers evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. [Safer Internet Day](#)
- reference to the relevant web sites/publications on the school website, e.g. [SWGfL](#); www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).

Approved: January 2025
Holly Lawton
Chair of Governors

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- *online safety messages targeted towards families and relatives.*
- *providing family learning courses in use of digital technologies and online safety*
- *providing online safety information via their website and social media for the wider community*

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering & Monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

The filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced.

Filtering

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering.
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated

Approved: January 2025
Holly Lawton
Chair of Governors

- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes (see Appendix for more details).
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- *the school has (if possible) provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)*
- *younger learners will use child friendly/age-appropriate search engines*
- *the school has a mobile phone policy*

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school's risk assessment. These may include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- *pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.*
- *where possible, school technical staff regularly monitor and record the activity of users on the school technical systems*
- *use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s)*

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements

- responsibility for technical security resides with SLT who may delegate activities to identified roles.

Approved: January 2025
Holly Lawton
Chair of Governors

- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the IT service provider and will be reviewed, at least annually, by the SLT/Online Safety Group
- password policy and procedures are implemented. (consistent with guidance from the National Cyber Security Centre)
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.
- the administrator passwords for school systems are kept in a secure place, e.g. school safe.
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- Soft Egg (IT Provider) is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.

Approved: January 2025
 Holly Lawton
 Chair of Governors

Mobile technologies

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device ³	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes only with permission	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only	Yes	Yes	Yes	No	Yes	Yes
No network access	No	No	No	No	No	No

School owned/provided devices:

- all school devices are managed through the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed
- any designated mobile-free zone is clearly signposted
- personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
- the use of devices on trips/events away from school is clearly defined and expectations are well-communicated.
- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use.

³ Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

Approved: January 2025
Holly Lawton
Chair of Governors

Personal devices:

- *there is a clear policy covering the use of personal mobile devices on school premises for all users*
- *where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.*
- *where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storage should be made available.*
- *use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices commissioned onto the school network are segregated effectively from school-owned systems*
- *the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.*
- *liability for loss/damage or malfunction of personal devices is clearly defined*
- *there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements*
- *education about the safe and responsible use of mobile devices is included in the school online safety education programmes*

Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse

Approved: January 2025
Holly Lawton
Chair of Governors

- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- *the school permits reasonable and appropriate access to personal social media sites during school hours*

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- *staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images*
- *care should be taken when sharing digital/video images that learners are appropriately dressed*

Approved: January 2025
Holly Lawton
Chair of Governors

- *learners must not take, use, share, publish or distribute images of others without their permission*
- *photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy*
- *learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.*
- *written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media. (see parents and carers acceptable use agreement in the Appendix). Permission is not required for images taken solely for internal purposes*
- *parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy*
- *images will be securely stored in line with the school retention policy*
- *learners' work can only be published with the permission of the learner and parents/carers.*

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Online newsletters

The school website is managed/hosted by [WordPress](#). The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so

Approved: January 2025
Holly Lawton
Chair of Governors

- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- has procedures in place to deal with the individual rights of the data subject, e.g. one of the dozen rights applicable is that of Subject Access which enables an individual to see/have a copy of the personal data held about them
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.

Approved: January 2025
Holly Lawton
Chair of Governors

- devices will be password protected.
- devices will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

The Personal Data Advice and Guidance in the [appendix \(B2\)](#) provides more detailed information on the school’s responsibilities and on good practice.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school’s online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

Approved: January 2025
Holly Lawton
Chair of Governors

A1 - Stay safe using the Internet and E-mail

The Internet is a fantastic resource for supporting our learning if it is used safely. Our digital leaders agreed on the following simple rules to make sure you stay safe and get the most out of the Internet at Vallis.

- ✓ Only use the computer for activities which you have been asked to do.
- ✓ Make sure you have the teacher's permission and a member of staff is in the room when using the Internet.
- ✓ Only use the Internet outside of lesson time if a teacher gives you permission and is present in the room.
- ✓ Only use the user name and password you have been given at school.
- ✓ Do not download and use material or copy and paste content which is copyrighted or inappropriate. Most sites will allow the use of published materials for educational use. Teachers will give guidelines on how and when pupils should use information from the Internet.
- ✓ Make sure you inform a member of staff if you have accidentally accessed content which seems inappropriate or makes you feel uncomfortable.
- ✓ Never try to access or change the file areas of other pupils or staff.
- ✓ Never try to load CDs, DVDs, Memory Sticks or other files/software from home.
- ✓ Never give away your personal details on the Internet e.g. real name, address, phone number, school (including photographs wearing school uniform).
- ✓ Never arrange to meet anyone you have spoken to/messed on the Internet/email.

If you do not follow these rules it may result in one or more of the following:

- A ban, either temporary or permanent, on the use of the Internet at school.

Approved: January 2025
Holly Lawton
Chair of Governors

- A letter informing your parents of the nature and breach of the rules.
 - Appropriate sanctions and restrictions placed on future access to school facilities to be decided by the school.
- Remember – if you are worried about anything to do with using the Internet, please talk to your teacher!

A2 Learner Acceptable Use Agreement – for KS2

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open-up new opportunities for everyone. They can stimulate discussion, encourage creativity, and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly.
- I will only visit internet sites that adults have told me are safe to visit.
- I will keep my username and password safe and secure and not share it with anyone else.
- I will be aware of “stranger danger” when I am online.
- I will not share personal information about myself or others when online.
- If I arrange to meet people off-line that I have communicated with online, I will do so in a public place and take a trusted adult with me.
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

Approved: January 2025
Holly Lawton
Chair of Governors

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.
- I will not try to alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do.

I will think about how my behaviour online might affect other people:

- When online, I will act as I expect others to act toward me.
- I will not copy anyone else's work or files without their permission.
- I will be polite and responsible when I communicate with others, and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- I will only use my own personal devices (mobile phones/USB devices etc.) in the school if I have permission. If I am allowed, I still have to follow all the other school rules if I use them.
- I will only use social media sites with permission and at the times that are allowed.
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, I may be subject to disciplinary action. This could include: *loss of access to the school network/internet, detentions, suspensions, parents/carers contacted and in the event of illegal activities involvement of the police.*

Learner Acceptable Use Agreement Form

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

Approved: January 2025
Holly Lawton
Chair of Governors

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner:Group/Class:.....

Signed:Date:

Approved: January 2025
Holly Lawton
Chair of Governors

A3 Learner Acceptable Use Agreement – for younger learners (Foundation/KS1)

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets.
- I will only use activities that a teacher or suitable adult has told or allowed me to use.
- I will take care of computers/tablets and other equipment.
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong.
- I will tell a teacher or suitable adult if I see something that upsets me on the screen.
- I know that if I break the rules, I might not be allowed to use a computer/tablet.

Signed (child):

Signed (parent):

Approved: January 2025
Holly Lawton
Chair of Governors

A4 Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

The school uses technology, including the internet, to support the curriculum wherever this is appropriate. Pupils are taught computing and about effective and responsible use of technology and the internet. Pupils are given guidelines and taught how to be careful and considerate in their use of technology and the internet and how to maintain a balance between this and other activities.

The school may use approved blogs, emails, picture galleries and other tools to help with educating your child. Children and staff will always be taught to use responsible and caring language online.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent/Carers Name:

Approved: January 2025
Holly Lawton
Chair of Governors

Learner Name:

As the parent/carer of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

I know that my son/daughter has signed an acceptable use agreement and has received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

As the schools is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)
Who will have access to this form.
Where this form will be stored.
How long this form will be stored for.
How this form will be destroyed.

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name/initials will be used where permission has been given.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

Parents/carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents/carers to agree.

As the school is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)	The images
Who will have access to this form.	Where the images may be published. Such as; Twitter, Facebook, the school's website, local press, etc. (see relevant section of form below)
Where this form will be stored.	Who will have access to the images.

Approved: January 2025
Holly Lawton
Chair of Governors

How long this form will be stored for.	Where the images will be stored.
How this form will be destroyed.	How long the images will be stored for.
	How the images will be destroyed.
	How a request for deletion of the images can be made.

Digital/Video Images Permission Form

Parent/Carers Name:.....Learner Name:.....

As the parent/carer of the above learner, I agree to the school taking digital/video images of my child/children.	Yes/No
I agree to these images being used:	
<ul style="list-style-type: none"> to support learning activities. 	Yes/No
<ul style="list-style-type: none"> in publicity that reasonably celebrates success and promotes the work of the school. 	Yes/No
Insert statements here that explicitly detail where images are published by the schools	Yes/No
I agree that if I take digital or video images at, or of school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.	Yes/No

A5 Staff (and Volunteer) Acceptable Use Policy Agreement Template

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

Approved: January 2025
Holly Lawton
Chair of Governors

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will use personal email addresses in accordance with the online safety policy and in social timings of the day.

Approved: January 2025
Holly Lawton
Chair of Governors

- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the online systems in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors/Trustees and/or the Local Authority and in the event of illegal activities the involvement of the police.

Approved: January 2025
Holly Lawton
Chair of Governors

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
